Job: 1 Technician: SCOTT

CUSTOMER STATES: Car has been sparingly used since 2006, total miles since 1990 is 10k miles. Overall evaluation of vehicle. check car over and make recommendations as follows: compression test, vacuum test, steering gear box, subframe mounts, exhaust, flex disk, rear axle bushings, oil leaks in front of engine, brakes, shocks, brakes calipers, brake pads and rotors. This car is a candidate for cryogenic dry ice blasting, determine process if exhaust gets removed and shipped to cryo clean. check air suspension valve date codes, these are new valves. check tires, they seem to be dry rotted. upgrade tires to 6.3 size of 215/70/14 instead of the 195/75/14 presently on car. check chain tensioner and rocker arm for valve train noise. check water pump and date code. check all rubber hoses thru out car, check fuel pump, fuel hoses, gas tank. car came with gas smell from aftermarket fuel pump for cis car, fuel pressure is at 80 psi for this pump, see if regulators have been adjusted to reduce pressure to 24 psi. check kingpins, lower king pin mounts drag link, torque upper and lower control arm bolts on subframe (probably loose), check steering box for leaks and steering coupling.
